

Requesting a Review of Your Microcredential Mastery

We have designed these modules so that you can selectively target the skills you want to acquire a la carte as you have the need, and also to complete all ten modules to earn the full EDInfluencers Advocacy Microcredential, certifying you have attained the skills, understandings and dispositions to effectively advocate for what is best for the profession and for the children, families and communities we serve, as you have the time and interest.

If you have successfully completed all ten modules and are ready to have your work reviewed by The Worthy Educator, simply select the button below to contact us and indicate you would like us to begin the review process. Please allow a minimum of one week for staff to review your work as it is posted in the EDInfluencer Advocacy Microcredential Incubator, and attach any additional materials not posted online that you would like to be considered as part of the body of work in your fulfillment of the requirements. Thank you.

Click here to request that we review your completion of all ten modules in fulfillment of the requirements for your EDInfluencers Advocacy Microcredential:
